# Mio Såg

## DESCRIPTION

Mio Såg is a mineral oil-based bar and chain oil intended for lubricating chains and bars/blades in modern chainsaws and forestry machinery.

## PROPERTIES

Mio Såg is based on a mineral oil and contains additives to enhance adhesion properties so the oil stays in place, and lubricates bars/blades and chains. Mio Såg contains EP additives, which means that the oil can withstand high loadings without the film breaking. Mio Såg is an “all-seasons” oil.

## RECOMMENDATIONS

Mio Såg is recommended as an “all-seasons” oil for lubricating bars/blades and chains for chainsaws and forestry machinery. Mio Såg retains its viscosity (pour point) at temperatures of as low as  $-20\text{ }^{\circ}\text{C}$ .

SPECIFICATIONS		
Analyses	Units	Results
Density at 15 °C	kg/m <sup>3</sup>	885
Flash point	°C	205
Pour Point	°C	-30
Viscosity at		
40 °C	mm <sup>2</sup> /s	100
100 °C	mm <sup>2</sup> /s	12
Viscosity Index		111
